The Consilio Coordinated Review service offers clients professional Review Coordinators who provide guidance, administrative support, and review best practices. Clients maintain control over the review workflow and receive the support needed to ensure the project stays on track. The Coordinated Review Service:

ENSURES TRANSPARENCY AND HELPS MEET DEADLINES

In order to have a successful review, overseeing counsel require review progress insights, direct communications with the review team, and trusted administrative support. Consilio Review Coordinators will:

- Ensure compliance with a Communications Protocol.** Excellent communication is essential for review success. For each Coordinated Review engagement, Consilio will customise and document a Communications Protocol that defines the content of reports, their frequency, and escalation procedures if problems arise.
- Monitor the service delivery progress.** A Senior Director Sponsor supervises every phase of the review to ensure progress and will direct the Review Coordinator on how best to support the review and engage with the client.
- Generate progress, tagging, and other reports.** The Review Coordinator will run periodic reports that allow clients to view essential metrics including progress, tag frequency, and time on task.
