From increasingly complex data security and privacy regulations to the explosion in data volumes and compressed timelines, we understand our client's legal challenges look very different than just a few years ago. As partners on thousands of matters and investigations, we have developed the capabilities trusted to address the toughest of legal challenges. Our global teams provide not just geographic coverage, but deep practical expertise operating in-region and across borders. Connecting our teams and robust workflows, our strategically located global technology network enables efficiency and reliability while ensuring your matter's toughest data privacy and security requirements. For an increasingly complex world, trust Consilio to help you deliver.

Global Reach, Local Expertise

Active Review Presence

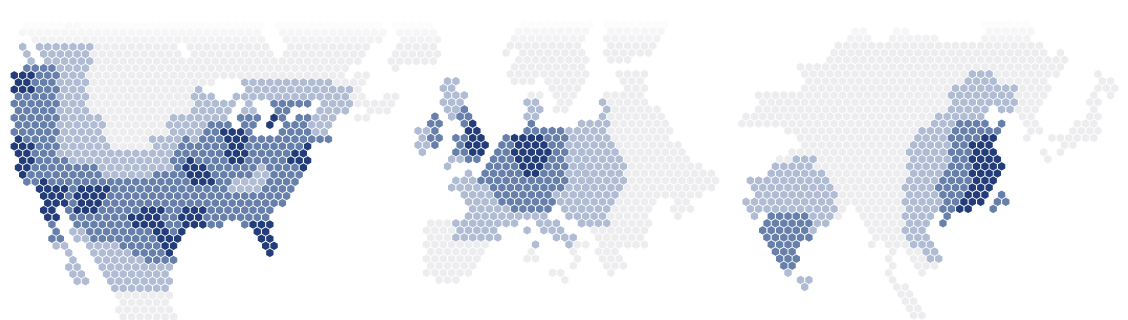

Data Center Certifications

Facilities are ISO 27001/SAS 70 and/or Type 2/SSAE 16 certified and protected by 24/7 security.

Data Forensics Reach

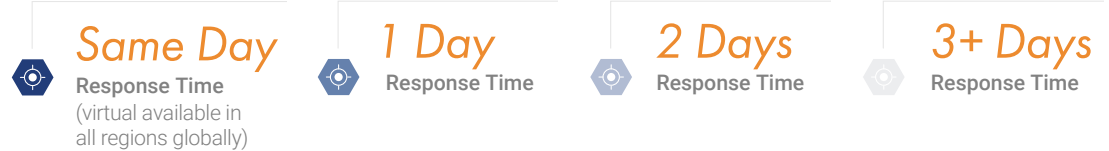

Encryption

All data in motion, whether physical or virtual, is fully encrypted using SSL.

Physical and Electronic Security

Multiple layers of physical security— including guards, cameras and biometrics— restrict access to our facilities.

- Network perimeter controls identify and prevent network intrusion.
- Regular third-party penetration testing.

Consilio Security Certifications

Our complete suite of eDiscovery solutions is physically located in certified and secure data centers.
