

Lower costs and increase efficiency with enterprise data processing & hosting that performs

- ◀ Leverage scalable global technology infrastructure that adjusts to meet your demands
- ◀ Best-in-class security & flexibility accommodates data privacy, security, and cross-border requirements
- ◀ Workflow innovations ensure seamless management of special requirements & exceptions

## Complete Data by the Numbers

250+

Terabytes of Data  
Ingested Monthly

36K+

Exports & Productions  
Annually

23K+

Customer Support Requests  
Managed per Month

15+

Data Centres  
Around the World

12K+

Hosted Projects  
per Month

While cloud computing has its strengths, achieving enterprise-grade data security, global infrastructure flexibility, processing innovations that scale, and workflow efficiency & reporting is nearly impossible without multi-year, multi-million dollar investments. **Consilio Complete Data offers clients access to global, enterprise-grade data processing, hosting & production infrastructure that streamlines the elements of the eDiscovery process beyond the capabilities of cloud computing.**

### The Complete Data Difference

- **Automated & Scalable Capacity, Speed and Quality** - Quickly ingest & index multiple terabytes of data a day with accurate output. Our Central Command allows the ability to shift resources where needed to meet demand.
- **Secure global infrastructure** of 13+ data centres, ISO 27001/SAS 70 and/or Type 2/SSAE 16 certified that are regularly audited to accommodate privacy, regulation & cross-border data movement needs. Data security & operations monitored 24-7-365 by network operations & information security teams.
- **Data support when you need it** - over 100 processing engineers as well as hosting, IT & network operations specialists globally.
- **Enriched processing to aid workflow efficiency** - Automatic processing and population of key metadata fields for all processed custodians, all file paths, all efiles as well as parent email wrapper identification that contains expanded header data for child emails.
- **Specialised handling of files** - Ensuring important data is not lost with specialised handling of data from corrupted files, processing of Apple iWorks for review in Relativity or natively on PCs, as well as decryption & password cracking workflows.

### Global Reach, Local Expertise

	<b>5,400+</b> Employees Worldwide		<b>20+</b> Countries Worldwide with Staffed Review Professionals		<b>31+</b> Languages Covered in Review Projects Globally		<b>15+</b> Data Centers Around the World

## Why Choose Consilio?

### A More Consultative Approach

Our specialists are there to guide you. We challenge assumptions based on experience and ask the right questions at the start of the process, keeping your review on track and on budget.

### A Drive to Achieve Service Excellence

Our teams utilise proven processes and patent-pending QC overview to deliver fast turnarounds without sacrificing quality.

### Right Solution for the Right Results

With a team of over 100 software and database engineers, we innovate to help our clients excel beyond the status quo, from in-house platforms to enhancements of off-the-shelf solutions.

### Together as One Global Practice

Through our expert advisors, technology infrastructure, matter expertise and proven workflows we offer our clients global reach and local expertise together.
